

## Rainer Würth

### *Curriculum Vitae / CV*

Inner and outer landscapes blur into one another

Well-known German writer Rainer Würth (\*1967) learned and trained his photography skills as a journalist. For local media in the beginning, he took photos to illustrate his stories and articles. Later – as a freelance travel writer – he worked for nationwide newspapers and magazines in Germany, Switzerland and Austria. Focused on the writing mainly he continued to shoot and publish photos from his trips all over the world.

After he moved to Flores (Azores) in 2016 his main focus is artistic photography – portraits, body & nude and landscape. In his photos inner and outer landscapes often blur into one another. Rainer Würth is interested in the open, in fragments and abstraction. For him as a photographer it is all about the moment, motif and composition – to create visual poetry or to tell a story. In the process of taking pictures he experiments with apertures and exposures, intentional camera movement (ICM), light and color.

Rainer Würth's photographs have recently been showcased in various curated group exhibitions, including Blank Wall Gallery (Athens), LoosenArt (Rome), Art Square Gallery New York, Kunst Depot Gallery (Venice), Glasgow Gallery of Photography, The SE Center for Photography (Greenville / US), Carlotta Gallery (GB), PH21 Photography Gallery (Budapest), Colonel Eugene E. Myers Art Gallery (Department of Art & Design at the University of North Dakota / US) and CICA Museum (Cong Institute for Contemporary Art) (Gimpo / South Korea).
